FIRE IN OFFICE OF PARADISE OF THE PACIFIC

Smoke issuing from the windows of the Paradise of the Pacific offices on the second floor of the Waverley block late yesterday afternoon caused a still alarm to be sent to the fire department headquarters to which the chemical responded. After entrance was gained to the composing and press room a small blaze was discovered in the ceiling. This was quickly extinguished. The damage was nominal, but if the evidences of a blaze had not been seen so early, it is likely that a serious fire would have resulted. As far as could be ascertained, defective wiring over the ceiling was the cause of the fire.

REPAIRING SCHOOL BUILDINGS.

Today County Engineer Gere will commence work shingling Maemae School. The roof of this building was found to be in such shape that considerable work was deemed necessary in order to prepare it for the next term of the school. Gere expects to put a force of at least fourteen men to work.

JAMMED KNIFE BLADE INTO HUSBAND'S ARM

As the sequel to a night of drinking, resulting in a family brawl, the police were called to a house in Iwilei district shortly after 4 o'clock yesterday morning to arrest a knife wielder. On arriving at the house, they found that Lilia Malia, a Hawaiian woman, was the assailant and that the wounded person was her husband.

The story told by the husband was that, during a quarrel, the woman went to the kitchen and procured a small kitchen knife with a sharp point which she jammed into his left upper arm. The blade sank three inches into the arm and then ripped it open, causing a heavy flow of blood.

The husband was taken to the Queen's Hospital for treatment and the woman is confined in the police station.

There was a break in the feed water pipe leading to the turbines of the city and county electric light plant last night, hence the shutting down of the plant and the darkness in most of the residence sections. The break was being repaired last night and the plant will be in operation tonight as usual.
